

St. George's Academy

St. George's Academy is a member of the national network of Episcopal Schools. Our mission is to provide "...students a superior academic education that recognizes each child's self-worth and individual potential within a Christian environment in the Anglican tradition. We encourage love of family, country and God in a setting that is welcoming to all people and respectful of individual differences."

Our intimate setting and small class sizes allow us to provide for individual differences in the learning styles of students while maintaining the highest academic expectations. It also allows us to fulfill our commitment to nurturing the qualities of leadership, citizenship and community service for all students.

Our diverse faith-based community takes great pride in developing respect for our differences in an atmosphere that addresses complex social issues and enhances spirituality.
