

Stewardship

St. George's is a great gathering of the abundant time, talent and treasure of our members. Together we are privileged to carry out a variety of ministries.

There is an opportunity to learn about membership in the Episcopal church through regular Covenant classes held on Sunday evenings every few months. We empower all individuals to discover their unique God-given gifts and talents and share them with a wider community.

The Parish is governed by an elected Board called a "Vestry" that manages the resources of the congregation. We are a democratic church with full participation of lay and clergy, men and women who share fully in the ministry of the church.

We are each called to be stewards, and to hold together the best of the Catholic traditions (bishops, priests, deacons, baptism and the Eucharist) and the principles of the Protestant Reformation, to create a balanced and inclusive Christian community for the modern age.
